

Hello!

My name's Devlinek - your amazing and indispensable universal companion. I'm the improved sixth version already - no kidding. Have you never heard of me before? Well, it is simple, yet untranslatable Czech abbreviation that says I am a "tasting fork that looks like a deer when standing" - see?

I was made by a small firm full of handy people from the Prostějov City. I have a hardened body (mostly by hardening) from stainless material 420MoV - I'm a tough boy - up to 55 HRC they say - so I am not feared by whichever can or lid I come across.

You still don't understand what I'm good for? Well, here I am with a little description...

...And I even have my own website: www.devlinek.cz

Facebook site: www.facebook.com/groups/devlinek/

Instagram: www.instagram.com/devlinek_original_multitool/
